

Collapsible Utility Cart

Custom Industrial Products

L-S Industries, Inc. provides custom conversion and fabrication of materials which are primarily for industrial packaging, but the applications are endless. Like this collapsible utility cart, it can be used in many different industries for moving and storage of items.

Durable

Collapsible

Reusable

Cart Uses

These carts are especially valuable in applications where you need the cart for a short period of time, then stored:

- Move-ins at colleges and apartments
- Corporate Moves
- Storage Units
- Industrial & Manufacturing Facilities
- Distribution Centers

Cart Features

The biggest feature of this cart is the ability to break it down flat after use. Some other advantages over traditional carts include:

- Durable, straight sidewalls
 - More capacity and items stack better inside
 - Will not tip over
 - Tested with 250lbs center loaded
- Cleans & sanitizes easily
- 39”L x 28”W x 35”H (outside) fits through most standard doorways
 - 17.8 cubic feet of usable space
- Easily customizable with decals or screen print
 - For branding
 - For Instruction
- Cart parts can be replaced individually as needed

The perfect cart for busy move-in days

Add decals for branding

Insert sidewalls into groove in cart base

Secure with zip ties through holes in cart

l-si.com/utility-carts

Cart Materials

The cart is made of two components: the sidewalls and the base cart.

- The sidewalls are made of honeycomb polypropylene, a lightweight, yet durable material. It is used in a lot of returnable packaging applications, so it is made to last, and completely weather resistant. The sidewalls weigh 17lbs.
- The cart base is made with a combination of the same honeycomb polypropylene and aluminum which provides rigidity while remaining lightweight. The total base cart weighs 18lbs.
- 35lb total weight assembled

How it works

- Open the sidewalls and slide into groove designed in the cart base
- Secure to the frame with provided heavy-duty zip ties (175lb tensile strength)

*Additional zip ties available through
L-SI or on ULINE.COM*

L-S Industries celebrates over 50 years of expertise in converting, laminating, and packaging manufacturing. It is our vision to be a leader in packaging manufacturing by providing innovation. We strive to provide excellent service and timely delivery for our customers. While the packaging we provide is not your final product, we realize it is critical to your business and we treat it as such. The dedicated employees at L-S Industries are focused on customer service and creating a business partnership with our customers to deliver optimum value.

L-S Industries believes in recyclable packaging products to help limit the impact on our environment. We recycle all available scrap in our facility, and we encourage our customers to recycle the materials we sell them as well.
